  See Website for Full List of Commands

PAYS FOR ITSELF IN ONE SAVED TOW OR DEALER DIAGNOSTIC VISIT

This powerful and affordable tool delivers real-time data for all major heavy-duty truck makes in North America, including Freightliner, Peterbilt, Mack, Kenworth, Volvo, Western Star, International and more.

Maximize your heavy-duty truck uptime by quickly and reliably detecting all true diagnostic trouble codes and manufacturer-specific fault codes. New features and upgrades are delivered directly to the app, eliminating the need for cumbersome updates and the cost of replacing expensive diagnostic gear. Just plug it into a diagnostic port, sync it via Bluetooth® to the free Diesel Decoder by Diesel Laptops® app, and use your smartphone to view fault codes and get repair information.

DIESEL DECODER PROFESSIONAL

Knowing what's wrong with a vehicle can make all the difference— *if* there's a way to put that knowledge to work. **Diesel Decoder Pro** leverages diagnostic data with bi-directional functions such as **DPF regenerations** and **aftertreatment reset** commands. Diesel Decoder users can upgrade to the Pro plan for just $29.99/month - purchased through Google Play or the Apple App Store - and get their vehicles back on the road *without* an expensive tow or dealer diagnostic visit.
